ConsilyApp: the E-Voting Application for council meetings

ABOUT VETRYA:

Vetrya is a leading International Group in the development of digital services, applications, and broadband solutions. The company, thanks to the strategic partnership with Microsoft Corporation, is able to offer and develop Cloud services and solutions that use all the important features of the Azure platform, ensuring the highest levels of service, in Private, Public and Hybrid Cloud models. Vetrya cooperates with all customers and organizations to help them change innovation into creation value.

Our customers:

Our clients are looking for an innovative way to set up e-voting sessions creating a system that allows a verification of the attendance and the outcome of the votes.
ConsilyApp meets exactly these needs. All the voting sessions are carried out on Teams: the authentication to the platform and the votes are safe and easy to perform and track.

WHAT WE OFFER

ConsilyApp is natively integrated with Teams using *Microsoft Graph API* and it has the following features:

- Setting of the voting session

- Selection of the role of the user (Administrator, Voter, Spectator)

- Download of the final report

The users are notified when they are required to vote expressing their favourable or dissenting vote or even abstention.

ConsilyApp is able to calculate the results applying the QUORUM system as stated by the current legislation and it allows to manage all the voting functions of the council.

The great advantage lies in the possibility to participate in the council meetings and to cast a vote by sitting remotely and it has been thought especially for the current digital transformation.

Why Microsoft 365?

Save your company money

Microsoft 365 is available as a simple monthly subscription. Avoid large up-front costs for new software while moving the cost of IT from capital to operating expense. And without on-premises servers to run email, websites, and document storage, you can reduce energy costs and save by no longer purchasing new server hardware.

Scale your business quickly and flexibly

Microsoft 365 grows with you on the Microsoft Azure cloud. Adding a new user is as simple as buying an additional license, which allows access to business-critical technology on up to five PCs/Macs and five mobile devices. Microsoft 365 provides many plans to fit the right capability needs and price points for each user in your organization.

Technical support

Your Microsoft 365 subscription comes with 24/7 support from a global network of experts, with one-hour response for critical, service-impacting events.

Financially backed SLA

Get peace of mind knowing your services are available when you need them with a financially backed, 99.9% uptime service-level agreement.

Simplified IT management

Reduce headaches by reducing your IT infrastructure. Content lives safely in globally distributed data centers with continuous backup and disaster recovery abilities.

Microsoft 365

Microsoft 365 is a cloud-based subscription service that brings together the best tools for the way people work today. By combining best-in-class apps like Excel and Outlook with powerful cloud services like OneDrive and Microsoft Teams, Microsoft 365 lets anyone create and share anywhere on any device.
